SLEDGE-HAMMER BLOWS. Blaine Delivers One of His Strong Speeches

at Calais. [Copyright, 1888, by the California Associated Press CALAIS (Me.), August 29th .- The city was lecked with gay colors to day when Blaine, Hon. John A. Kasson and party arrived. Tremendous enthusiasm was manifested. Blaine, in his speech, described the Mills bill as a bill for the destruction of the ma-terial interests of Maine—a bill to throw open American markets to the Canadians absolutely free of charge. The revenue concessions made to Canada are worth vastly more than a tax of \$150 a ton on our vastly more than a tax of \$150 a ton on our fishing vessels, which they propose in the modus vivendi appended to the late treaty, that would never have yielded them \$100,000, at the very outside. But who shall calculate what this will yield to Canada if we stand ready to concede American markets to Canada, as the Mills bill does? Canada will give us could rights in Canada will give us equal rights in her fisheries for the enormous privileges conceded, and pay for the chance, and yet Cleveland recommended all the concessions in the Mills bill, and in addition made a treaty with England surrendering the rights of American fishermen. Couldn't be find of American fishermen. Couldn't he find some other American rights to give up? He alluded to the President's retaliatory message as "a campaign document," and closed by saying: "The English are good judges of the Democratic party." Blaine's next speech will be at Dover.

A CHARACTERISTIC SPEECH. Ingersoll Says the Republicans Will Mop

the Floor with Cleveland. (Copyright, 1888, by the California Associated Press.) SARATOGA, August 29th.—Colonel Robert G. Ingersoll spoke for two hours at the Republican ratification meeting this evening. His speech was a grand departure from the general run of political harangues, and was rapturously applauded. His ironical allusion to Cleveland and the result of free trade was received with laughter and applause. He was in favor of protection because it has a tendency to develop American brains and American men and

THE OLD STYLE. Disgraceful Democratic Politics Down in

Arkansas. New York, August 29th .- A letter from edford Brown, of Locust Bayou, Calhoun county, Ark., to the National Republican Committee, shows a deplorable state of afairs in his county. Brown is a Southern man, but a Republican, and he soundly denounces the bulldozing acts of the Bour-bon Democrats. He said last week that members of the county fusion ticket were met by armed and drunken Democratic nobs and were driven entirely out of the ield. A mass meeting was called by the usion ticket at Chambersville, but it never A murderous mob, headed by the Sheriff, met the citizens going to attend the meeting and ordered them to go home and crawl into their holes until the election was over, or forfeit their lives. THE RAILROADS WIN.

An Iowa Court Decides a Case Against the Commissioners. Iowa City (Ia.), August 29th.—Judge Fairhall has filed an opinion in the case of the Iowa railways against the Iowa Railway Commissioners, the test case being that of the Chicago, Rock Island and Pacific Railway against the Commissioners to restrain them from putting into effect a schedule of rates prepared by the Commissioners in ursuance of the recent law of the Iowa

The Court holds that while the Commissioners are authorized to exercise discretion in fixing rates, yet when they fix such rates low that the earnings will not enable the plaintiff to pay fixed charges and operating expenses, then their acts contravene the spirit of the statute, which requires them to be honorable and just, and is in violation of the constitutional provision which equires the common carrier to have re-

ward for his services. The Court further holds that the title of uthority of the legislation is between rates which are compulsory and those which are not, and, when not, the Court of Equity has authority to inquire into the matter. The Commissioners at once appealed to the Supreme Court.

One of the facts brought to light incidentally was that naturalization papers are being issued fraudulently to an alarming extent. arming extent.

"Another fact developed was that the New England fishermen, about whose rights we have had so much trouble, are really made up of aliens to the extent of 75 per cent. As to the remedy, although we shall undoubtedly recommend some legislation, the committee has not agreed upon the form it shall take. One plan, which appears to me would be effective, would be to require a man to declare his intention of becoming an American citizen six months before stood, and argued against Payson's amendeaving his native country. This would enable the nearest American Consul to in-quire into his character and ascertain whether or not he is a criminal or pauper. Again, some members favor a tax of about \$100 on each immigrant, but I cannot agree o that plan.'

when Chicago is reached. The run to Chicago has been accomplished in four days and a half. There the cars, now reduced to five in number are attached to a passenger train on the consigned; the other two or three continue over the Erie road to Binghamton, where they are transferred to the Fitchburg's lines. The time consumed between Sac ever, paid as much as \$801 on a single carload, and, since the receipt of their first consignment, on June 13th, have paid weekly freight charges ranging between \$5,500 and \$6,500.

From the Fitchburg depot the fruit escorted to the auction house of H. Harris & Co., 227 State street, and is disposed of altogether at auction. This system of selling is, in the opinion of Mr. Ripley, the secret of the success which has this year attended the enterprise of the California Fruit Union. To Boston the credit beongs of inaugurating the system. It was afterward adopted in other cities, and the Chicago papers, with the cool effrontery which characterizes them, have sought to rob the Hub of its distinction and confer t upon the plebian lake city.

It is chiefly the earliness of the California fruit which gives it a market here. The moment Delaware peaches and other Southern fruit begin to reach us the Cali-Ripley, as it must in the near future, and be surpassed. All the fruit keeps in a remarkable manner, considering the distance of transportation, not more than twentyfive per cent, being lost from all causes.

NIGHT CAPS.

THE MOST WONDERFUL MEDICAL DIS

ing in the head (so common with children), partial deafness (when caused from above disceases), colds in head and all throat troubles, by the nightly wear of Drs. Brown & Kirkman's Medicated Night Caps. They finally, through the great absorbant powers of the medicine, eradicate every vestige of discess, and protect the head from colds, which is the foundation of most diseases. While we recommend those of aggravated or long-standing cases of said complaints to sleep with them on, we do not insist that they should be used altogether during sleeping hours, by those who use them as a preventive of said diseases, for which they are also warranted, but instead can wear them as any ordinary skull cap during the day with Southern fruit impossible at present.

A Foul Crime Witnessed by Some Boys

While Bathing.

[Copyright, 1888, by the California Associated Prest.]

Spokane Falls, August 29th.—About 2

P. M. Tuesday some boys bathing in the river saw George Miller strike Fred Koll on the head with a stone and then shove him in the river, where he was drowned. Both parties were from San Francisco. Miller claims to have come from the Sandwich Islands in July. Miller, when arrested, was with a party of Italians, and was this morning identified by the boys. He denies

WHEAT—There is a strong market, though the situation is not marked by any special activity. Shippers who need Grain for loading purposes will pay \$1:7% for standard Wheat to meet immediate requirements, and probably higher figures would be given under an emergency. Offerings are far from liberal, while holders as a rule ask prices above the views of buyers. Sellers look upon the situation as favorable for their interests, and are inclined to make the most of the opportunity. Hence they show no hurry to realize.

BARLEY—The improved feeling noted yesterday was well maintained to-day. It looks as if better times were near at hand, and dealers are more hopeful than in some time. Custom for feed descriptions show slight increase, while the prospect is fair not only for continuance of trade, but also for enlarged movement. A cargo of Brewing Barley goes to New York to-day by sailing vessel, and another will follow just as soon as she can be loaded. Some inquiry is developing for Chevalier Barley on English account, and rumors are current that a ship has been secured for this purpose, though no positive information in the premises has been obtained. We quote prices as follows:

No. 1 Feed, 81½@82½c; common grades, 8°c; Brewing, 87½@35c for fair to good Chevalier, 55@35c for common and \$1.25@1.32½ \$\mathbb{B}\$ ct for good to choice.

SINGULAR ACCIDENT.

Five Coal-Oil Lamps Explode at San Jose, [Copyright, 1888, by the California Associated Press.]

SAN Jose, August 29th.—A singular coalioll lamp accident, fortunately without casualty, happened yesterday. A lady visiting the family of Dr. Secord was, pursuant to habit, heating water in a tin cupplaced on top of a lamp chimney. Five other lamps, filled and ready for evening use, stood in a row near it on the table.

St. Paul arrived from Ounalaska to-day, having 100,000 seal skins, the season's catch on St. George and St. Paul Islands. She also brought a number of other skins and furs, the value of the entire cargo being estimated at \$2,000,000.

The revenue cutters Thetis and Bear, at last reports, were in the Arctic, and all on board were well.

PURSUANT TO A RESOLUTION OF THE Board of Directors of Modesto Irrigation District, duly given and made on the 14th day of July, 1888, notice is hereby given that said Board of Directors will sell to the highest bidder, and on the best available terms, the bonds of said Irrigation District in the amount of \$500.000, bearing interest at the rate of six (6) per cent. per annum, payable semi-annually on the 1st day of January and July of each year, on the presentation of the interest coupons at the office of the Secretary of said Board.

Said Bonds are issued by the Board of Directors of Modesto Irrigation District in accordance with and by the authority of an Act of the Legislature of the State of California, entitled "an Act to provide for the organization and government of irrigation districts, and to provide for the acquisition of water and other property, and for the distribution of water thereby for irrigation purposes," approved March 7, 1887.

Said bonds will be sold for cash, and for not less than ninety per cent of the lace value. Said bonds will be sold for cash, and for not the 4th day of SEPTEMBER, 1888, at which time and place said sale will be made.

Said bonds will each be of the denomination of not less than one hundred dollars nor more than five hundred dollars, to suit the purchaser, and will be negotiable in form, and will conform in all respects to the requirements of said Act.

The right to reject any and all bids is hereby reserved. Bids must be sealed and addressed to the Secretary of said District, and indorsed "Proposals for Modesto Irrigation District Bonds."
